

# Yellowknife Condominium Corporation #6

## Board Meeting

November 17, 2016

### **Agenda**

Scheduled Attendees: Chris MacNaughton, Greg Irvine, Neil White, Colin Charlton, Dan Knox, Chris Bertoli, Dale Crouch, Sheena Embodo, Ryan Schuler & Ryan Sundberg(Triton)

In Attendance:

Regrets: *Chris MacNaughton, Greg Irvine*

Scheduled Call to order 19:00  
Called to Order at: *19:15*

Changes to Minutes for Month: October  
- *None*

Approval Minutes for Month: November  
Motion put forward: *Neil W*  
Second: *Dan K*

### Finance Report

- Account Receivable -
- Insurance Claims - None
- Reserve Fund -
- Maintenance Estimates -
- Loans - None
- Note -

## Maintenance Report

### New:

-

### Open:

- Unit 48 - Flashing above master bedroom is falling off. This happened during the wind storm. I spoke with Greg about it no update as of yet. On May 19th this was added to the repair list. Scheduled for the week of July 4-7 and/or 11-15 CMS will be doing the work - We had to end up switching contractors due to date conflicts. J&R Mechanical will now be the ones doing this work. Scheduled to be completed by the end of August - Now scheduled to be fixed end of September - Ryan(Triton) was unable to make the meeting so we don't have an update on this yet still on going - *This has been completed.*
- Unit 501 - Water System Rust and Leak - Email was sent back in late August about the water system that supplies water to both Unit 501 & 503 I failed to add this to the August and September meeting minutes. Looks to be badly corroded. Email was sent late September to find out if this was corrected - As per unit owner no action was done. Ryan from Triton did say this needs to be resolder by the plumber as there is a little leak. Still waiting on plumber to show up - Ryan(Triton) said no leak just sweating as this is a cold pipe at it's in a warm room. However a plumber scheduled to come by to replace shut of valve. Spoke with Sheena & Earl no one has contacted then as of yet - *Sent an email on Nov 6th to find out if this was completed. Ryan(Triton) and unit owner replied stating this was completed.*

### Closed:

- Unit 15 - Water leaking in through the old Chimney. This unit replaced their old furnace with a new furnace which vents to the back and no longer uses the old chimney that goes to the roof. Although it was capped in the house it wasn't until the warmer weather that water was leaking thought this old chimney. The only reason for this is because at one point in time the cap to the top of the

chimney is missing so the chimney collected snow which eventually turned to ice then water. The unit owner Dan took care of the water that was leaking through however come summer the top of the chimney needs to be taken care of. fixed, capped or removed. Because of this we are going to inspect all chimneys while on top of the roofs. The capping of chimneys that have the new units will be done and we will check the state of the other chimneys. This will be part of a bigger repair. Scheduled for the week of July 4-7 and/or 11-15 CMS will be doing the work - We had to end up switching contractors due to date conflicts. J&R Mechanical will now be the ones doing this work. Scheduled to be completed by the end of August. - Now scheduled to be fixed end of September - *A new chimney cap was put on the old chimney.*

## Emails

### New:

-

### Open:

- Unit 26 Moving would like to make sure that the December Condo Fees do not come out of current Unit holders account - Still on going - This was going back to November of 2014. We did end up taking out Decembers condo Fees, I am awaiting confirmation if this was resolved. On going - Need to follow up with the book keeper and treasure. Still on going - *There has been no movement on this still on going.*
- Unit 25 Condo Fees has set up time table with Triton to pay off outstanding condo fees and fill out a Direct Payment Authorization form - Still on going - Awaiting confirmation if this was resolved. Turns out the owner thought this was resolved but according to our book keeper it is not. Email chain involved Owner, Sue, Sheena and Gold City. On going - The board has been working with the all parties involved to resolve this issue. Still on going - We are down to the last final parts of this issue - Cheque for outstanding balance has been picked up from the mail box - *Outstanding cheque has been cashed unit owners account should be up to date now.*

- Copper Piping - It was suggested that we put one years worth of copper piping toward the completion of the decks. Correction looking to have one years piping funds differed to complete the rest of the decks - In order to move forward with this the board via email decided this was a good idea & approved it. Units 23,25,31,33,35 & 37 had both the tops & bottoms done. Half way done we still have Units 39,41,43,55,59,63 & 73 to do - Units 39, 41 & 43 is done. Only 55,59,63 & 73 left to do - *Ryan(Triton) says this was done. However there are about 4 or 5 units still remaining to get done but they are not dangerous so this will be done next year. Which units I do not know.*
- Unit 11 - Paint Reimbursement - We finally finished painting the back decks. We had paint given to us by Chris and had to buy more (see receipts), and then Ryan from trition told us Greg had some. We got 2 cans from him but it is a different colour grey. We used it for a first coat on the deck but in order to stay consistent with the already painted parts we did the second coat in the first grey (beauty tone silver grey from home hardware). Please submit the cost of the purchased paint (2 cans at 34.97 each for total of 69.94) for reimbursement to the board - Email sent to Triton and Sue to make cheque out to Unit 11 for the total amount - I have not heard back from Unit 11 to say if they received the cheque or not - *On November 6th I received an email from both Ryan(Triton) and the unit owner saying the cheque was derived and received.*
- Outstanding Balance Statements that was sent out - Still on going on whom replied and whom didn't. Also noticed that the some unit information was not correct or even put in the statements - Still on going - *This months statements did show the correct info still on going.*
- Unit 45 - Propane Blanket Installation - Was wondering if the board has made a decision on installing the propane blanket ourselves again this year or if we are going to get out Property Managment Triton to do the work. Depending on the decision depends on a date of installation - Ryan Schuler to speak with Superior and see what they say as we do rent the tanks from them - Superior Propane will put on and remove the blankets for us. Not to sure if they will use their own or ours - *There was no full resolution between Superior Propane and Us thus we asked Triton to put the propane blankets on for us. This was completed.*
- Triton & Gold City - Contact Info Cross Reference - On the last meeting we discussed a cross reference of contact - I sent an email on October 4th with what I had in my contacts in gmail - I haven't seen anything come back however I did

see that some of the outstanding statement info has been updated - Haven't heard back to confirm that we have the same info - *Still haven't heard back to confirm that we have the same info.*

### Closed:

- Crowe MacKay LLP - On June 20 the board received an email from Bassam Haidara who works at Crowe Mackay LLP about the Voluntary Disclosure Program. Email was forwarded to the Treasure but I think this needs to be looked at from everyone on the board. This is something that the old Treasure Andrew and New Treasure Sheena along with our book keeper Sue needs to look into - *After all said and done this is completed.*
- Crowe Mackay LLP - On June 24 there was an email sent to the board from Fred Deschenes who works at Crowe Mackay LLP about our Final Statements. This is something that the old Treasure Andrew and New Treasure Sheena along with our book keeper Sue needs to look into - *This is about the 2014/2015 Financial Statement. This has been completed & filled. Need to find out the cost of this - After all said and done this is completed.*
- Unit 71 - Concerns about Renters and Vehicle privileges - The board discussed that the vehicle in question has done what we have asked in the past. Doesn't seem to be violating any Condo-ByLaws - *Spoke with unit owner and explained what we discussed.*

### Website:

- Website - Colin and Andrew looking into. Website vs Facebook vs Gmail or perhaps all - There has been no movement on this - For the last few months I have been trying my website creativity as I am no expert but the website has changed a little. Not one hundred percent correct as of yet but better than what it was still on going - Neil has been working with Kellett Communications and is now able to

upload and arrange content onto the website. Would like to present a 100% working website by the next AGM - Still on going. - I didn't get this working 100% we may have a possible person to look after our website. I got a reply from Unit 501 stating that he can look after the website will pass around to the board to make a decision on. - The quote from Earl is approximately \$100.00 per year to host our website. Earl will look after the maintenance and upgrades for free. The board had a few question. If Earl leaves who take responsibility for the website. - The board got a email response back, the board will look over this in our next monthly meeting - The board has agreed for Earl to look after the hosting and maintenance of the website. Email sent will work with Secretary to make sure all current functionality is still there - Hoping to have the new website up mid October with a new domain name - Still on going - I have not seen much updates from Earl on this as of yet. I gave him the info that he was asking. Still on going - *Earl wanted to know if we had a corporate card I said I don't think we do and this was the last update. No changes has been made as of yet to our website.*

### Outstanding Items & Task:

#### New:

- Unit 11 - wanted to know if we have "Children Playing" signs - We decided that we could use two of these signs including a one way sign. Email was sent to Ryan(Triton) to go a head and get these signs - *Not to sure if these signs where picked up or not.*
- Blue wave - It was brought up that maybe we should be looking at Blue wave as an alternative provider of propane - Blue wave will be at our November 17 condo meeting and present their pitch - *This never happened. Not to sure what the next move is.*
- Superior Propane - It was brought up that we "The Condo Board" should get a group rate rather then be subject to individual rates. Along with maintenance of the tanks we rent - Superior will be presenting their pitch on November 24th - *This never happened however there was several emails back and forward about a contract with us.*

#### Open:

- Maintenance Contract - Draft found and given to Greg for review - Neil to pass out draft contract to the board members to refine - Done - A Maintenance Draft Form between YKCC6 and Triton was sent out amongst the board members to fine tune before we go into another year agreement was asked by Triton(Ryan) to provide a copy of last years Maintenance Agreement however I do not have a copy of this - This is still in a draft format due date unknown at this time also there is another draft contract that needs to be compiled for the bookkeeping itself. - Still on going - Right now Triton is on a month to month contract with us - I thought I had a copy of the latest Contract Draft but I do not - We may need to start from scratch on this one. Still on going - *No real movements on this as of yet still on going.*
- Jersey Barrier - Greg to order some up - There has been no movement on this - Half a dozen has been ordered will deploy these in the spring - We are just awaiting the arrivals of these units. - The barriers are approximately 8 feet long by 1 foot high. - Still on going - Almost done. We distributed what was delivered to us. We are waiting for five(5) more Jersey Barriers to be casted and delivered - Still on going - *Our jersey barrier has been delayed a little due to the new hospital build. Still on going.*
- Garbage Bins - The cost of our Garbage bins are costing us a large enough sum that we looked into purchasing two garbage bins vs renting. Doing the quick numbers on this it looks like the purchase of two garbage bins would pay for itself in 3 years. Our current garbage bins has lasted 20 or so years with a lid replacement of one bin. More needs to be done to determine if we will move forward with this - Last few meetings didn't happen still on going - Colin to get back to me on exact details and cost as getting the Garbage Bins up here cost more then we thought - The cost for purchase is approximately \$7000.00 for two bins. Will bring this forward at the AGM. - This was not brought forward to the AGM. Colin to double check the figures and the board to make a final decision on if we purchase these garbage bins or put this on the back burner for now. - It was stated that Kimberlite court wanted to get rid of one of their garbage bins. Dan to ask for a price. - Still on going - Colin working on this. Still on going - We are still trying to work something out here. Still on going - *There has been no change on this.*
- Crawl Space Responsibility - Look at getting this added to the Maintenance Contract or in house responsibility - Still on going - It was discussed that a schedule will be set up with Triton & Maintenance to go through each Units

crawl space, note what is there, what shouldn't be there, what if anything needs to be fixed. Once done there will be a sheet with stating Unit number, comments & date. If anything happens under the Unit after that date it will be Unit responsibility. Especially for the Units that have the crawl space access on the outside - *Ryan(Triton) says all external crawl spaces are locked up. Just need to schedule dates for the ones that are internal. No email was sent out to unit owners about the external crawl spaces and I have not sent out any emails to the unit owner for dates on the internal crawl spaces.*

- Eaves Troughing repair and replacement - No schedule as of yet Triton has been in contact with them - Looks like some of these will need to be replaced and some just re-aligned - This has been brought back up from Seasonal On Holds. We have already started the process on and it is on the repair list. Triton is going to clean the lower eaves troughing next week. - Greg to follow up with Triton. - Still on going - The cleaning of the troughing on the main street has been completed. The rest of the complex has not been done. We are going with Northern Eaves Troughing - As per this meeting almost all cleaned. Should be done by end of September, 2016 - They may have been cleaned but there are lots around that need to be replaced. Will put in seasonal on holds until next year.

-

### Closed:

- Pre-Authorized Payment vs Credit Card Authorization or both - Suggested that we allow people to pay the condo fees via credit card to try and eliminate non-payment of condo fees by owners - Still on going - This was brought forward at the AGM it was determined that this is a good thing. There will be cost to this onto the individual who is paying by Credit Card. The amount on what the individual pays depends on what company they have their credit card held in. Ryan S to check to see if that can be done via our book keeper. - Still on going - This can be done. The preferred card choice is Visa or Mastercard. The cost is an additional 3% to the Card Holder. Triton will amend the EFT waiver form - *On October 22nd and email was sent out to all unit holders on file that this is available.*

## Seasonal On Holds:

- Playground needs sand and grass cut. Repairs to equipment as needed. Also check into price of new playground equipment - Andrew raked the playground area. Linsey to look into the cost of a new playground. Linsey to show Triton the possible dangers of the playground so this can be fixed - Haven't heard any outcome on this issue yet. - Triton & Linsey never got a chance to get together this past summer. However Linsey did look up a comparable play structure from BlueImp. Cost of replacement Approximately \$20,000.00. We may be able to get used play structure equipment from downtown daycare. - Still on going - The board has decided that we need to confirm if this structure is still sound. We need a person that is playground certified. Triton to follow up with the Schools in town - It seems that we have address all the concerns with this playground. We do know that this is old and we do have it scheduled to be replaced entirely in the future.
- Unit 49 sink hole developing in front of garage - No updated on this issue - Turns out this slipped through the cracks. Will have to get this checked out - This is on hold until Spring. On May 19th this was added tot he repair list. Scheduled to be fixed for the week of July 4-7 and/or 11-15 - Filled with crush needs to be paved scheduled to be fixed by end of August. - Now scheduled to be fixed by end of September - On October 8th someone came by to put in hot asphalt in multiple area's - Need to come back and add more however with the winter months upon us now not to sure if anything can be done until next year - *Put under Seasonal On Hold until Spring/Summer*
- Unit 43 concerned about blue siding between the two garages - Still on going but as far as I know we have replaced this a few times & for some reason it still comes off - There has been more blue siding purchased and we will get this replaced - This is on hold until Spring. Heard that there should be more blue siding under unit if not then there should be some under Unit 5-11. On May 19th this was added to the repair list. We do have siding scheduled to be fixed for the week of July 4-7 and/or 11-15 - This work has been completed had to get the siding paint matched. It was noted that there is also a hole in the driveway & need to repair a retaining wall. Scheduled to be completed by end of August. - Now scheduled to be fixed end of September - On October 8th someone came by to put in hot asphalt in multiple area's - Need to come back and add more

however with the winter months upon us now not to sure if anything can be done until next year - *Put under Seasonal On Hold until Spring/Summer*

- Unit 61 - Siding near back deck - This was just brought to my attention during this meeting this is on hold until Spring - This will be looked at in the spring. This is not siding it is a J-Channel which goes around the back patio door. On May 19th this was added to the repair list. Still on going no date as of yet - The part is on order has not arrived yet. Scheduled to be completed by end of August. - Looks like we actually missing some flashing. Central Mechanical to cut the right size piece. Now scheduled to be fixed end of September. Ryan(Triton) was unable to make the meeting so we don't have an update on this yet still on going - *Put under Seasonal On Hold until Spring/Summer*
- Unit 22 - Developing a sink hole by front planter. On May 19th this was added to the repair list. Scheduled for the week of July 4-7 and/or 11-15 - Filled with crush needs to be paved scheduled to be fixed by end of August - Now scheduled to be fixed end of September - On October 8th someone came by to put in hot asphalt in multiple area's - Need to come back and add more however with the winter months upon us now not to sure if anything can be done until next year - *Put under Seasonal On Hold until Spring/Summer*
- Unit 43 - Developing a sink hole by garage. On May 19th this was added to the repair list. Scheduled for the week of July 4-7 and/or 11-15 - Filled with crush needs to be paved scheduled to be fixed by end of August - Now scheduled to be fixed end of September - On October 8th someone came by to put in hot asphalt in multiple area's - Need to come back and add more however with the winter months upon us now not to sure if anything can be done until next year - *Put under Seasonal On Hold until Spring/Summer*
- Unit 509 - Main Floor Front Window Leak - Unit owner understands that the unit owner is responsible for windows however this situation speaks to the integrity of the outside of the unit as it allows rain water to enter into the wall - I replied back including Triton & Greg - Greg responded back to Triton to check with Diamond Glass as he had this issue in the past - Unit owner would like to get this resolved before it hits below zero - A person by the name of Dave came by to asses the situation & said he will return on Monday. However Monday is a Stat Holiday so they must have meant Tuesday - Was looking for an update unfortunately I had none for Unit 509 - I emailed the unit owner on Nov 6 to find out an additional information. Unit owner said it hasn't bee done, she is on vacation but does have a roommate there if access is needed. On the same date

got an email back from Ryan(Triton) saying no leak found have to wait until spring to water test - *Put under Seasonal On Hold until Spring/Summer*

**Adjournment:**

- 21:00
