So far this has effected Unit 501 & 505 - As of January 17, 2019 the flooring in the basement is still being dealt with. There has been no damage to unit 501. The manhole was backed up due to the amount of water that was used to put out the fire in Unit 11 & freezing. As the work has been repaired the unit owner was concerned about a possible health risk not only to their family but everyone else in the fourplex & wanted to make sure the sewage pipe is insulated before winter if fully upon us.
